

Your Wheel | Where are you?

Consultancy & Coaching
Envisage | Empower | Achieve

This is your wheel of you! Measuring where you are now, and then you can use this tool to reflect where you want to get too in the future. Identify up to 8 areas that you want to focus on and mark these on the wheel. I'd also suggest using different colour pens / marks to highlight the difference between now and the future.

Marking nearest the middle is 1, so non existent / very limited and towards the edge is 10, so super confident in that area.
